## PROFILE

---

Energetic Web Designer with one year of experience creating UI for adaptive websites and applications. Clear understanding of modern technologies and best design practices. Always trying to improve the user experience of my products to make it easy to use. Experienced with Figma and Adobe XD.

## EMPLOYMENT HISTORY

---

### Freelance Web Designer, Tencent

Remote

Dec 2020 - Present

Trovo is an interactive live streaming platform for gamers and the things we love. It's a unique platform that allows users to watch and chat with one another from around the world.

- Planning site designs, functionality and navigation, along with audience funnels and data capture points.
- Building wireframes & prototypes which were then turned into functional and responsive digital products.
- Reviewing UX with multiple teams and making necessary edits to accommodate technical or business concerns. Raised UX scores by 38%.

## GOALS

---

A major motivation for me is self-expression in being able to design and develop a website to be proud of. I always try to keep up with new UI trends and create something new with perfect UX score. Being noticed by the products that I have made is the biggest reward for me.

I'm planning to continue studying web design in professional universities in the near future, being mentored by famous designers Ethan Marcotte, Artemy Lebedev is my goal
